

Site/Project Assessor

THE COMPANY:

PurePoint Energy provides high performance, commercial and custom residential solar electric projects that make our client's lives, our communities, and the planet a better place. We take care of every detail, so that our clients are delighted with the experience today and the results for decades to come. Since 2015, we have been recognized as one of the top 3 solar companies in Connecticut as well as one of the top 500 solar companies in the United States.

We are a small company that is growing and out to achieve big results. We are looking for someone that is not just looking for a paycheck. We are looking for someone who is excited about making a positive impact on the world.

THE POSITION:

The ideal candidate is energetic, motivated, innovative and has integrity. You have been described as a “go-getter”. Your written and oral communications are clear, friendly and convey the PurePoint Energy brand. You will be based out of our office, here in Norwalk, CT.

JOB RESPONSIBILITIES:

- Visit site pre and post-sale for job assessment. At times this could involve qualifying a design before the contract is sold.
- Collect all necessary data needed to draft solar plans for construction, as well as engineering.
- Obtain Suneyes, roof and framing measurements.
- Take clear photos of electrical service and document areas for solar equipment.
- Construct and complete set of site photos needed and completing a solar site assessment form for each job.
- Discuss with customer key details of the project and effectively communicate what is and what is not possible for equipment location.
- Communicate with solar designer, sales person and project manager in regards to project details, and discoveries at the job site.
- Assist with Solar Squad related field work as needed, within schedule of Site Assessor duties. This can include swapping out optimizers, MLs, inverters and monitoring equipment.
- Documenting and completing QC reports

Key Skills:

- Construction background and/or electrical knowledge
- Attention to detail
 - Documentation and organization is highly critical. Any missed information or poor documentation of site information is costly.

- Excels in problem solving.
- A working knowledge of the NEC and best solar installation practices.
- Comfortable navigating the job site, maneuvering on roofs and taking covers off electrical equipment.
- Ability to read through and understand solar electric plans and equipment installation guides, order to verify system is being installed correctly.

JOB REQUIREMENTS:

- Full time Monday – Friday
- Proficient in Microsoft Office (Word & Excel)
- Proficient and organized email correspondence
- Computer Literate
- You are a great communicator
- You like people and care about our customers
- You do what you say you will
- You never want to stop learning
- You wake up motivated to accomplish things
- You follow through with things and like to be accountable for results
 - Valid Driver's License
- Experience in solar is a plus

COMPENSATION:

HOW TO APPLY:

If you think that this opportunity sounds awesome and are confident that you would be a great contribution to our team, please put your cover letter in the body of an email to hr@purepointenergy.com and attach your resume as a pdf file. In your cover letter, please include some of your key historical sales statistics: How many sales calls you went on per week on average, what was your close rate, what was your average sale in dollars.

Thank you for your interest in being part of our team!

We are an equal employment opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, national origin, disability status, protected veteran status or any other characteristic protected by law.
